

TÜBİTAK

Enhancement of Status of Associated Country to FP7

Hüseyin METİN

Outline

- FP7 Structure
- Role of NCP and Representation in Programme Committees
- Consortium Creation
- Promoting organization's visibility

The diagram illustrates the implementation process of the Seventh Framework Programme (FP7). It shows a flow from top-level policies and strategies to specific implementation tools, and finally to the performers and users of the research and technological development (RTD) activities. The process is mediated by National Contact Points (NCPs) and involves various implementation tools such as thematic priorities, work programmes, project topics, and funding schemes. The final stage shows information being diffused to RTD performers and users through NCPs, with a focus on ideas, cooperation, people, euratom, and capacities.

Policies, Strategies on RTD

- European/International Associations
- Technology Platforms
- Program Committees
- EP Directives and Roadmaps
-

Implementation tool :

- Thematic Priorities
- Work Programmes
- Project Topics
- Funding Schemes

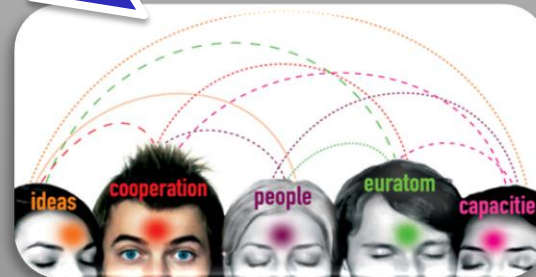

NCPs

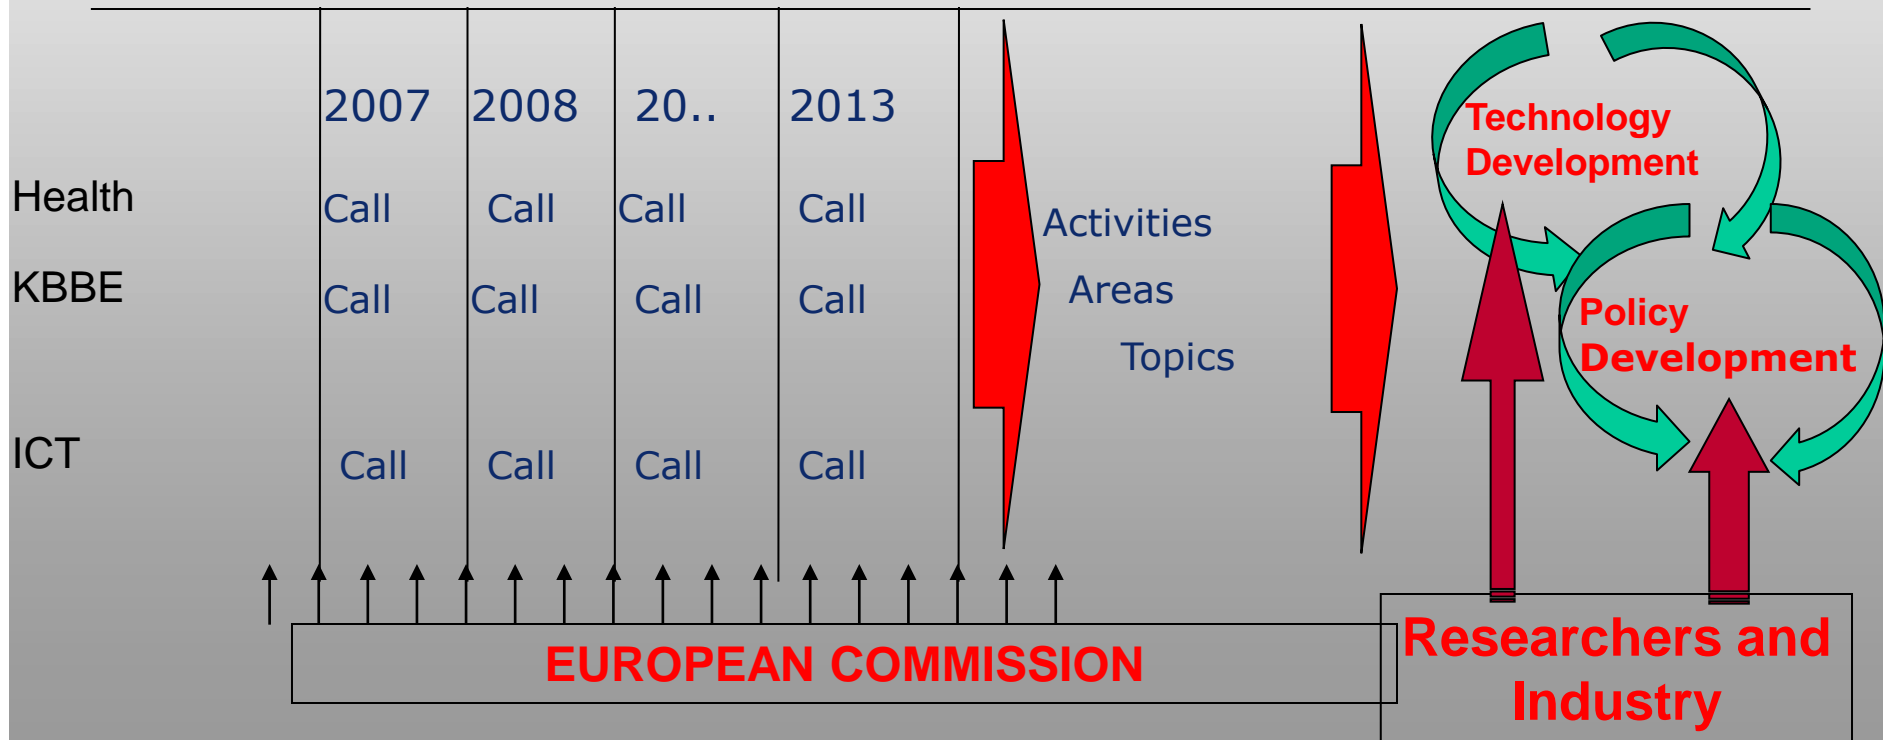

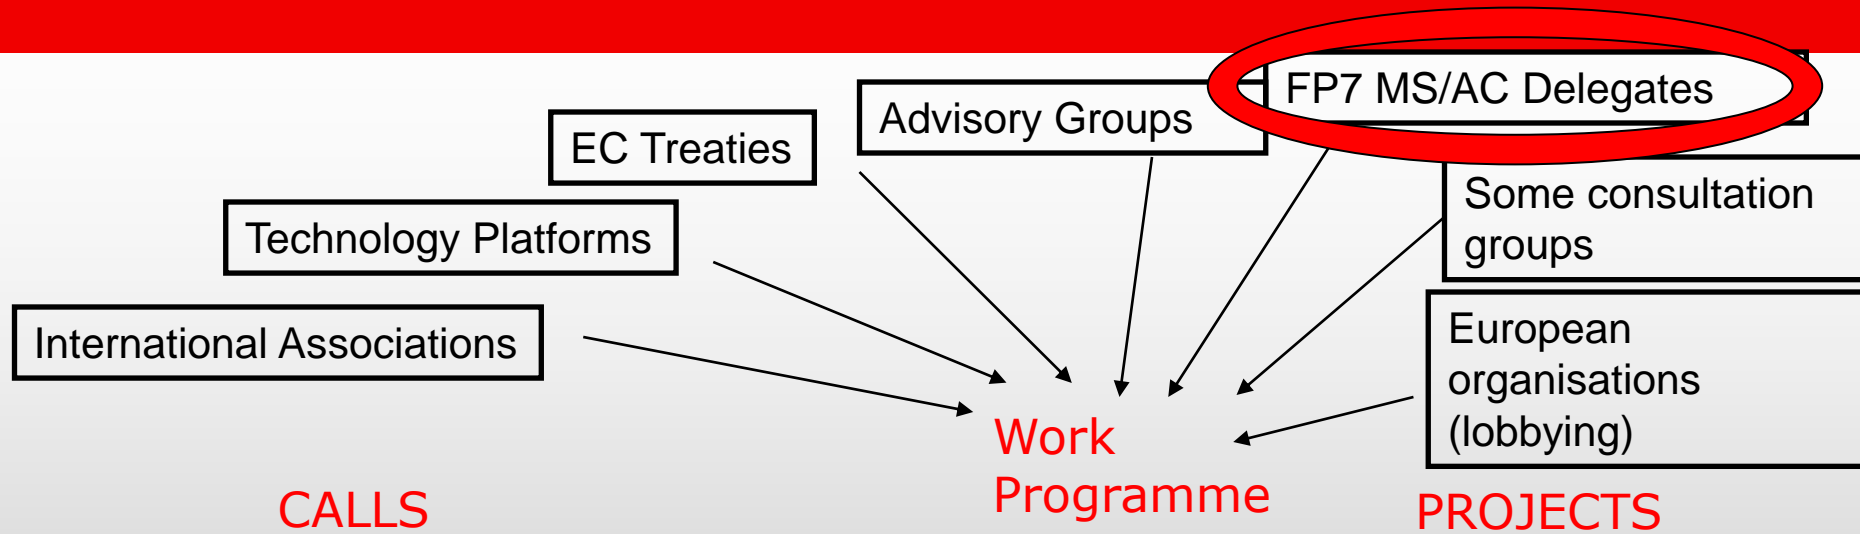

FP7 contacts

Information is difused to RTD performers and users through NCPs

- IND
- ACA
- SME
- RES
-

Labels in the bottom image: ideas, cooperation, people, euratom, capacities

EC-NCP Cooperation

European Commission:

- Publish NCPs on CORDIS & other legal documents
- Provide training for NCPs
- Organise events and support (finance) NCP participation
- Provide info on WPs, calls, roadmaps, procedures, funded projects, expression of interests
- Provide promotion materials (booklets, leaflets)
- NCP extranet (CORDIS NCP Forums)
- Finance NCP projects
- Co-organise regional/national events
- NCP correspondants

→ open to all FP7 contacts
no financial support unless otherwise stated.

Responsibilities of NCPs

- Informing, Awareness Raising
- Advising, Assisting and Training
- Signposting and Feedback to EC
- Knowledge on technical content
- Knowledge on national RTD & industrial landscape
- Contribution to national structuralisation in critical topics
- Knowledge on EU RTD & industrial landscape
- Matchmaking skills
- National and international networking
- Feedback to national and EU policy makers

FP7 National NCP Systems

NCP Organisations

Reports to Horizontal
Committees

Representation in Programme Committee

Delegates

Keep in mind: You are representing your
Country's priorities!

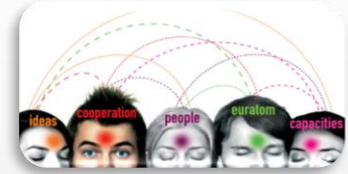

- ✓ You provide input for shaping Work Programme
- ✓ You provide input for budgets earmarked for specific topics
- ✓ You negotiate for your country's proposals
- ✓ You have access to some very critical databases

You have direct effect on your success!

Representation in Programme Committee

Delegates

An ideal Program Committee Member should:

- ✓ Have knowledge about FP7 dynamics
- ✓ Have knowledge on national R&D and Industrial Landscape
- ✓ Have moderate scientific knowledge on the thematic priority he/she is representing
- ✓ Have good connections with related national institutions

Representation in Programme Committee

Regularly attend Programme Committee meetings

- ✓ To keep track of new instruments, don't miss opportunities (eg. PPPs, FET Flagship)
- ✓ Inform your national authority about possible actions
- ✓ Meet other countries, see their competencies and priorities

How to Find a European FP7 Partner

The Turkish Experience

The Good News

- A lot of money is waiting for you in Brussels
- You can really work on an international scene
- Cooperate to create critical mass, while sharing risks
- Work with the best in the field
- Open up new markets using the latest technology
- Positive for your image and reputation

The Bad News

- The paperwork is killing
- Running a large project can be rather complex
- Writing a proposal is expensive
- You never know if you will get the money
- Badly performing partners can spoil it for you
- It's not so easy to cooperate with other cultures

“Good ideas will always get funding”

NO!

Basic Rule No. 1

To be successful in any funding scheme
you need to fully understand
the **purpose** of the granting agency

and

ACCEPT IT!

**Participation in FP7 has to fit
the strategy of
your
organisation**

Keep in mind...

The Beginning

- To see if your ideas fit FP7, read:
 - The Call Text
 - The Work Programme
 - The Guide for Applicants (the right one!)
 - *FP7 in Brief - fact sheets*
- Talk to your National Contact Points
- Consult your own (international) network

Built a consortium

- Use your network, but not only your friends
- Look for
 - Balance, Complementarity, Excellence, Commitment
- Again check with NCPs
- Partner search on Cordis
- Dedicated projects to help you:
 - SMEs go Life Sciences
 - FOOD-N-CO
 - EU-Balkan FAB Net

New official source for FP7 calls for proposals

The Participant Portal's FP7 calls section will become the European Commission's single authoritative website for information and documentation on FP7 calls. These new pages will replace the CORDIS FP7 calls service which will be phased out in the coming months.

Network of National Contact Points (NCPs)

The network of National Contact Points is the main structure to provide guidance, practical information and assistance on all aspects of participation in FP7.

What is the NCP network?

NCPs are national structures established and financed by governments of the 25 EU member states and the states associated to the framework programme. NCPs give personalised support on the spot and in proposers' own languages.

The NCP systems in the different countries show a wide variety of architectures, from highly centralised to decentralised networks, and a number of very different actors, from ministries to universities, research centres and special agencies to private consulting companies. This reflects the different national traditions, working methodologies, research landscapes and funding schemes.

Network of National Contact Points (NCPs) in Member States and Associated States

The NCP network is the main provider of advice and individual assistance in all Member States and Associated States. By using this service you can easily find the contact details of the designated National Contact Points for your country.

Since NCPs are appointed for each of the areas of FP7, when seeking support you should contact the NCP relevant to your area of interest.

Welcome

BIO-NET supports the successful participation of research centers, universities and innovative SMEs in EU-funded FP7 "Knowledge Based Bio-Economy" research projects.

Funded by the European Commission, the **BIO-NET** project combines the efforts of National Contact Points for the FP7 KBBE theme in all European countries. By joint collaboration in activities that have a high impact when performed on an international level, **BIO-NET** aims to provide high quality support for organisations that wish to participate in FP7 projects.

What can BIO-NET do to help entrepreneurs and researchers get involved in FP7?

- 1 We can provide you with information on FP7 by organising dedicated info days. For newcomers we have a series of basic training sessions, particularly focussed on SMEs and young researchers. Please check our Events page for more details.
- 2 We can help you on an individual basis and provide feedback on your project ideas. Please check the Contacts page to find the National Contact Point in your country.
- 3 We can help you find project partners throughout Europe. We have a database with high quality profiles of interested organisations. Please check the Partner Search facility to find out more.

NCP Projects for Partner Search II

The screenshot shows the BIO CIRCLE 2 website. The navigation bar includes links for Home, About, Project Partners, News, Events, Trainings, Partner Search, Links, Documents, and Contacts. The 'Events' and 'Partner Search' links are circled in purple. Below the navigation bar is a banner with five colored panels representing different regions: Africa and Mediterranean Countries (orange), Asia and Oceania (yellow), America (green), Eastern Europe and Central Asia (blue), and Europe (light blue). Each panel contains a map of the region. Below the banner is a large image of several circular fish farming cages in the sea. To the left of the website, the text 'Events' and 'Partner Search' are written, with arrows pointing to the corresponding links in the navigation bar. Below the banner, the main heading reads 'International Cooperation in Food, Agriculture, Fisheries and Biotechnology!'. The text below this heading states: 'BIO CIRCLE 2 is a project funded by the European Commission. It aims at increasing the participation of researchers from outside Europe in research projects under the Food, Agriculture, Fisheries and Biotechnology theme (FAFB) of the 7th Framework Programme (FP7). BIO CIRCLE 2 partners are the national contact points for FP7 in 16 different countries outside Europe and 5 in Europe. Contact your national contact point for more information on how to connect with FP7-FAFB research. Find out more about the BIO CIRCLE 2 activities here or watch the BIO CIRCLE video'. On the right side, there is a section titled 'Next Events and Trainings' with a dropdown arrow. Below this, there is a red-bordered box containing the following text: '5th International Symposium on RECENT ADVANCES IN FOOD ANALYSIS', 'PRAGUE / 01 November 2011', 'On behalf of the Institute of Chemical Technology, Prague (ICT Prague, Czech Republic) and RIKILT...'. Below the red box, there is another section titled 'NutrEvent' with the date 'Lille / 15 June 2011'. The text below this section reads: 'The major event for innovation in nutrition and health. Every two years, NutrEvent brings...'. At the bottom right, there is a section titled 'Latest News' with the text 'African Journal of Agricultural Research (AJAR)'. At the bottom left, there is a logo for TÜBİTAK.
